Sec. 1. **Purpose.** The purpose of this Ordinance is to establish and impose restrictions upon the construction and operation of outdoor furnaces within the limits of the Village of Ravenna so as to secure and promote the public health, safety and welfare of the Village and its inhabitants. Outdoor furnaces can create noxious and hazardous smoke, soot, fumes, odors, air pollution, particles and other products of combustion, particularly when restricted airflow and low operating temperatures are present. These products can be detrimental to citizens' health and can deprive neighboring residents of the enjoyment of their property. These regulations are intended to eliminate noxious and hazardous conditions caused by outdoor furnaces.

Sec. 2. **Outdoor Furnaces Defined.** For purposes of this Ordinance, the term "outdoor furnace" shall mean a wood fired furnace, stove, or boiler that is not located within a building or structure intended for habitation by humans or domestic animals, but that provides heat or hot water for such building or structure.

Further, all chimneys shall have a minimum height of 20 feet and shall have a spark arrester installed on the top of the chimney.

The Zoning Administrator may approve a lesser height on a case by case basis if necessary to comply with manufacturer's recommendations and if the smoke from the lower chimney height does not create a nuisance for neighbors. Insulated chimneys are recommended.

- C. **Open Ground Area.** An area with a radius of 10 feet around the outdoor furnace shall be free of vegetation, except grass not exceeding four (4) inches in length.

- D. **Appropriate Furnace Size.** Outdoor furnaces shall be appropriately designed for the size of the structure to be heated. An outdoor furnace designed to heat structures more than ten percent greater than the size of the structure to be heated shall not be permitted.
- E. **Fuel.** No fuel other than natural wood without additives, wood pellets without additives, and agricultural seeds in their natural state may be burned. The following materials are specifically prohibited:
- (1) Rubbish or garbage, including but not limited to food waste, food wraps, packaging, animal carcasses, paint or painted materials, furniture, composite shingles, construction or demolition debris or other household or business wastes.
 - (2) Waste oil or other oily wastes.
 - (3) Asphalt and products containing asphalt.
 - (4) Treated or painted wood including, but not limited to plywood, composite wood products or other wood products that are painted, varnished or treated with preservatives.
 - (5) Any plastic material including, but not limited to nylon, PVC, ABS, polystyrene or urethane foam, and synthetic fabrics, plastic films and plastic containers.
 - (6) Rubber, including tires and synthetic rubber-like products.
 - (7) Newspapers, corrugated cardboard, container board or office paper.
- F. **Zoning District.** An outdoor furnace shall only be permitted in the R 1 Zoning District.

Sec. 4. **Permit.** The owner of an outdoor furnace shall obtain an annual permit from the Zoning Administrator, according to the following provisions:

- A. **Application Information.** The applicant for a permit shall submit the following information:

PART 100

ORDINANCE NO. 128

AN ORDINANCE TO REGULATE THE USE OF COMPRESSION RELEASE BRAKING DEVICES (JAKE BRAKES) WITHIN THE VILLAGE

THE VILLAGE OF RAVENNA ORDAINS:

Sec. 1. **Purpose.** The purpose of this ordinance is to establish and impose restrictions upon the use of compression release engine braking devices (commonly referred to as “Jake Brakes”) by drivers of motor vehicles within the Village limits, so as to secure and promote the public health, safety and welfare of the Village and its inhabitants. Compression release engine braking devices create excessively loud, persistent noise that can be disruptive of the peace and tranquility enjoyed by Village residents.

Sec. 2. **Definition.** “Compression Release Engine Braking Device” means a device primarily used, applied or engaged on trucks or motor homes or other large motor vehicles for the conversion of the engine (usually a diesel engine) from an internal-combustion engine to an air compressor or power-absorbing retarding mechanism for the purpose of slowing down or braking the motor vehicle, including, but not limited to, so-called Jake Brakes, Jacobs Brakes or Jacobs Engine Brakes™.

Sec. 3. **Use Prohibited.** It shall be unlawful for any person to apply, use or engage a Compression Release Engine Braking Device within the Village limits. This provision shall not apply to authorized emergency vehicles or where breaking by compression is necessary for the prevention of imminent danger to person or property.

Sec. 4. **Signage.** Appropriate signs prohibiting the application, use or engagement of Compression Release Engine Braking Devices may be erected at all public highway or roadway entrances as determined by the Village Council.

Sec. 5. **Violations.** A violation of this ordinance is a municipal civil infraction, for which the fine shall not be less than \$100.00 nor more than \$500.00 for the first offense and not less than \$200.00 nor more than \$1,000.00 for subsequent offenses, in the discretion of the court and in addition to all other costs, damages and expenses provided by law. For purposes of this section, “subsequent offense” means a violation of the provisions of this ordinance committed by the same person within 12 months of a previous violation of the same provision of this ordinance for which said person admitted responsibility or was adjudicated to be responsible.

Sec. 6. **Effective Date.** This ordinance shall become effective 30 days after publication of a summary of the provisions thereof in a local newspaper of general circulation within the Village.

PART 101

ORDINANCE NO. 132

AN ORDINANCE TO REGULATE OPEN BURNING WITHIN THE VILLAGE

THE VILLAGE OF RAVENNA ORDAINS:

Sec. 1. **Purpose.** Unregulated open burning creates a risk to the health, safety and welfare of the residents of the Village of Ravenna. Open burning is a fire risk which may create hazardous byproducts that can irritate eyes and lungs, obscure visibility, create odors and pose other health threats. Open burning may substantially increase the discomfort of residents who suffer from asthma, chronic bronchitis and other respiratory ailments. Because of the relatively close proximity of residences within the Village, open burning within the Village can affect adjacent properties. This Ordinance is intended to reduce the adverse effects of unregulated open burning throughout the Village.

Sec. 2. **Definitions.**

- A. “Yard Clippings” means leaves, grass clippings, vegetable or other garden debris, shrubbery, brush, twigs or tree trimmings containing foliage.
- B. “Open Burning” means the burning of any flammable material that is not done within a structure or building. Open burning shall not include use of internal combustion engines, or the use of properly installed and maintained smokeless, odorless incinerators.

Sec. 3. **Open Burning.** Open burning within the Village of any material is hereby prohibited. The prohibition on open burning includes, but is not limited to the following:

- A. Open burning of yard clippings is prohibited.
- B. Burning barrels, whether used for the burning of residential waste or used for the burning of other materials, are prohibited.

Sec. 4. **Exceptions to Prohibition on Open Burning.**

- A. The provisions of this Ordinance shall not apply to agricultural burning, including the burning of brush, trees and crop fields, on farms when performed in accordance with generally accepted agricultural and management practice (“GAAMPS”). Similarly, the Ordinance shall not apply to the open burning of beekeeping equipment and products, when burned for bee disease control.

B. Open fires used solely for cooking for immediate human consumption, or for recreation or ceremonial purposes, shall not be prohibited if the following conditions are satisfied:

- (1) The open fire may not exceed four feet in diameter.
- (2) The open fire shall not be composed, in whole or in substantial part, of yard clippings, paper or residential waste or trash.
- (3) The open fire shall use non-processed wood as fuel and shall not burn garbage or other material.
- (4) The open fire shall be tended and maintained in such a manner so as to not permit smoke or noxious odors to carry onto adjacent properties.
- (5) The open burning must be under the constant supervision of a responsible person, who must be 18 years of age or older.
- (6) Open burning under this subpart shall not be permitted during the hours from 11:00 p.m. through 8:00 a.m. Prior to this time, all fires shall be extinguished and all smoke issuing therefrom shall be doused so as to not permit such smoke to travel to neighboring properties.
- (7) The burning of tires, plastics or other material that may result in noxious odors or other seriously offensive conditions is prohibited under all circumstances. It shall be a violation of this Ordinance to burn any substance which emits in substantial concentration, smoke or gas which is toxic to plant or animal life, noxious or offensive in odor, or creates a lasting condition of thick smoke.

Sec. 5. **Liability.** A person who burns in violation of the conditions of approval contained in this Ordinance shall be liable for all fire suppression costs, emergency response expenses and other costs or liability resulting from damage that may be caused or that were created by the person's activities in violation of this Ordinance. Liability for these expenses will also apply to a property owner who permits or consents to another's burning in violation of this Ordinance. Nothing in this Ordinance shall authorize any activity or use that is a public or private nuisance, regardless of compliance with this statute.

Sec. 6. **Severability.** The sections and provisions of this Ordinance are severable and any portion which is declared inoperative or invalid for any reason by a Court of competent jurisdiction shall in no way affect the remaining sections or provisions of this Ordinance.

Sec. 7. **Penalty.**

- A. Failure to comply with the requirements of this Ordinance is hereby declared to be a nuisance per se. A violation of this Ordinance is a municipal civil infraction, for which the fine shall not be less than \$100.00 nor more than \$500.00 for the first offense and not less than \$200.00 nor more than \$1,000.00 for subsequent offenses, in the discretion of the court and in addition to all other costs, damages and expenses provided by law. For purposes of this section, “subsequent offense” means a violation of the provisions of this Ordinance committed by the same person within 12 months of a previous violation of the same provision of this ordinance for which said person admitted responsibility or was adjudicated to be responsible.
- B. Each day during which any violation continues shall be deemed a separate offense.
- C. The foregoing penalty shall not prohibit the Village from seeking injunctive relief against a violator or such other appropriate relief as may be provided by law.

Sec. 8. **Effective Date.** This Ordinance shall become effective 30 days after publication of a summary of the provisions thereof in a local newspaper of general circulation within the Village.

The Series 2008 Bonds may be subject to redemption prior to maturity by the Village only with the prior written consent of the Authority and on such terms as may be required by the Authority.

Notwithstanding the foregoing or any other provision of this Ordinance:

- a. The President and Clerk are hereby authorized and directed to approve the final terms of the sale of the Series 2008 Bonds as evidenced by the Purchase Contract or otherwise, including the date of delivery, the purchase price, the aggregate principal amount, which shall in no event exceed \$1,340,000, the principal amount and annual maturity dates of individual maturities, the rate or rates of interest payable on the Series 2008 Bonds, which shall not exceed 2.50% per annum, minimum principal denominations and the date of the first interest payment, subject in all respects to the limitations of Act 94 and Act 34.
- b. The Series 2008 Bonds may be delivered in one or more installments of principal in accordance with the Purchase Contract and the Supplemental Agreement.
- c. The Village promises to pay to the Authority the principal amount of the Series 2008 Bonds or so much thereof as shall have been advanced to the Village pursuant to the Purchase Contract and the Supplemental Agreement.
- d. So long as the Authority is the owner of the Series 2008 Bonds, (i) the Series 2008 Bonds shall be payable as to principal, premium, if any, and interest at The Bank of New York Mellon Trust Company N.A. or at such other place as shall be designated in writing to the Village by the Authority (the "Authority's Depository"); (ii) the Village agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on the Series 2008 Bonds in immediately available funds by 12:00 noon at least five business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; in the event that the Authority's Depository has not received the Village's deposit by 12:00 noon on the scheduled day, the Village shall immediately pay to the

Authority as invoiced by the Authority an amount to recover the Authority's administrative costs and lost investment earnings attributable to that late payment; and (iii) written notice of any redemption of the Series 2008 Bonds shall be given by the Village and received by the Authority's Depository at least 40 days prior to the date on which such redemption is to be made.

e. In the event of a default in the payment of principal or interest on the Series 2008 Bonds when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the Authority's cost of providing funds (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase the Series 2008 Bonds but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the Authority (as determined by the Authority) as a consequence of the Village's default. Such additional interest shall be payable on the interest payment date following demand of the Authority. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase the Series 2008 Bonds fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such account, the Village shall and hereby agrees to pay on demand only the Village's pro rata share (as determined by the Authority) of such deficiency as additional interest on the Series 2008 Bonds.

f. It is understood and agreed by the Village that during the time funds are being drawn down by the Village in accordance with the Purchase Contract and the Supplemental Agreement, the Authority will periodically provide the Village a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the Authority to provide such a statement or to reflect a disbursement or the correct amount of a disbursement shall relieve the Village of its obligation to repay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of the Series 2008 Bonds. The Village acknowledges that in the event the principal amount of the loan evidenced by the Series 2008 Bonds is reduced by the Authority in accordance with Schedule I to the form of the Series 2008 Bonds attached hereto as Exhibit A or the Supplemental Agreement, the Authority will prepare a revised Schedule I to the Series 2008 Bonds that is calculated so that the principal payments are rounded to the nearest dollar and which revised Schedule I shall be effective upon receipt by the Village.

The Bonds shall be signed by the original or facsimile signature of the President and countersigned by the original or facsimile signature of the Village Clerk. The Bonds shall have the corporate seal of the Village affixed thereto or printed thereon in facsimile form. No Bond shall be valid until authenticated by the

Bond Registrar. The Series 2008 Bonds shall be delivered to the Bond Registrar for authentication and upon authentication shall be delivered to the purchaser in accordance with instructions from the Village upon payment of the purchase price for the Series 2008 Bonds. Executed blank Series 2008 Bonds for registration and issuance to transferees shall simultaneously, and from time to time thereafter as necessary, be delivered to the Bond Registrar for safekeeping.

Any Bond, upon surrender of the Bond to the Bond Registrar by the Registered Owner thereof, accompanied by delivery of a duly executed written instrument of transfer satisfactory to the Bond Registrar, may be exchanged for Bonds of any other authorized denominations of the same aggregate principal amount, maturity date and interest rate as the surrendered Bond.

Any Bond may be transferred upon the books of the Village maintained by the Bond Registrar by the Registered Owner thereof, in person or by his duly authorized attorney, upon surrender of the Bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the Bond Registrar. Whenever any Bond or Bonds shall be surrendered for transfer, the Bond Registrar shall authenticate and deliver a new Bond or Bonds, for like aggregate principal amount, maturity, interest rate and series. The Bond Registrar shall require the payment by the Registered Owner requesting the transfer of any tax or other governmental charge required to be paid with respect to the transfer.

The Village shall have the right to designate a successor to the Bond Registrar and, in such event, a notice shall be mailed to the Registered Owners by the Bond Registrar not less than sixty (60) days prior to the change in Bond Registrar.

Sec. 6. **Replacement of Bonds.** Upon receipt by the Bond Registrar of proof of ownership of an unmatured bond, of satisfactory evidence that the bond has been lost, apparently destroyed or wrongfully taken and of security or indemnity which complies with applicable law and is satisfactory to the Bond Registrar, the Bond Registrar may deliver a new executed bond to replace the bond lost, apparently destroyed or wrongfully taken in compliance with applicable law. In the event an outstanding matured bond is lost, apparently destroyed or wrongfully taken, the Village may authorize the Bond Registrar to pay the bond without presentation upon the receipt of the same documentation required for the delivery of a replacement bond. The Bond Registrar for each new bond delivered or paid without presentation as provided above, shall require the payment by the bondholder of expenses, including counsel fees, which may be incurred by the Bond Registrar and the Village in connection therewith. Any bond delivered pursuant to the provisions of this Section 6 in lieu of any bond lost, apparently destroyed or wrongfully taken shall be of the same form and tenor and be secured in the same manner as the bond originally issued.

Sec. 7. **Payment of Bonds; Creation and Priority of Lien; Defeasance.** The Bonds and the interest thereon shall be payable solely from the Net Revenues, except with respect to the Series 2008 Bonds which shall also be

additionally secured by the pledge of the Village's full faith and credit in the manner provided by Section 8 of this Ordinance and to secure such payment, there is hereby created a first priority statutory lien upon the Net Revenues which shall be a first lien to continue until payment in full of the principal of and interest on all Bonds payable from the Net Revenues, or, until sufficient cash or Sufficient Government Obligations have been deposited in trust for payment in full of all principal and interest on Bonds of a series then outstanding to maturity, or, if called for redemption, to the date fixed for redemption, together with the amount of the redemption premium, if any. Upon deposit of cash or Sufficient Government Obligations, as provided in the preceding sentence, the statutory lien shall be terminated with respect to that series of Bonds, the holders of that series shall have no further rights under this Ordinance except for payment from the funds so deposited, and the Bonds of that series shall be considered to be defeased and shall no longer be considered to be outstanding under this Ordinance.

Sec. 8. **Pledge of Village Full Faith and Credit as Additional Security for Series 2008 Bonds.** As additional security for the payment of the principal of and interest on the Series 2008 Bonds, the Village, by a majority vote of the elected members of the Village Council, hereby pledges the full faith and credit of the Village. If the Net Revenues primarily pledged to the payment of the principal of and interest on the Series 2008 Bonds are insufficient to make a payment of principal of and interest on the Series 2008 Bonds when due, after taking into account on a ratable basis all payments then due on Bonds of equal standing, the Village shall be obligated to pay the principal of and interest on the Series 2008 Bonds in the same manner and to the same extent as the other general obligation bonds of the Village, including the levy, when necessary, of a tax on all taxable property in the Village in addition to all other taxes which the Village is authorized to levy, but not in excess of the rate or amount necessary to make the payment and subject to the constitutional, charter and statutory limitations on the taxing powers of the Village. Accordingly, the payment of the principal of and interest on the Series 2008 Bonds shall constitute the limited tax general obligation of the Village. If the Village makes payment from taxes or general funds pursuant to its full faith and credit pledge, the Village shall be reimbursed from Net Revenues subsequently received which are not otherwise pledged or encumbered for the payment of Bonds and the interest thereon.

Sec. 9. **Management.** The operation, repair and management of the System and the acquisition and construction of the Series 2008 Project shall be under the supervision and control of the Village Council. The Village may employ such person or persons in such capacity or capacities as it deems advisable to carry on the efficient administration of the System. The Village may make such rules and regulations as it deems advisable and necessary to assure the efficient management and operation of the System.

Sec. 10. **Rates.** The rates to be charged for service furnished by the System and the methods of collection and enforcement of the collection of the rates including late payment fees and penalties applicable to users of the System who fail

to pay, in a timely fashion, the rates and charges that have been billed for the use of the System, shall be those permitted by law and established by the Council on or before the date of adoption of this Ordinance and thereafter as established by resolution of the Council. In the event that a user of the System does not timely pay the rates and charges that have been billed to such user, the Village Council shall take the necessary action, in accordance with applicable Michigan statutes, to add such delinquent rates and charges to the user's ad valorem property tax bills.

Sec. 11. **No Free Service.** No free service shall be furnished by the System to any person, firm or corporation, public or private, or to any public agency or instrumentality, including the Village.

Sec. 12. **Rate Covenant.** The rates charged in accordance with Section 9 of this Ordinance are estimated to be sufficient to provide for the payment of the expenses of administration and operation and such expenses for maintenance of the System as are necessary to preserve the System in good repair and working order, and when taken together with Net Revenues, to provide for (i) an amount equal to the annual principal and interest requirements on all of the Bonds as the same become due and payable, (ii) the maintenance of the Bond Reserve Account, and (iii) all other obligations, expenditures and funds for the System required by law and this Ordinance. In addition, the Village covenants that the rates shall be set from time to time so that there shall be produced, in each fiscal year of the Village, Net Revenues, based upon the Village's reasonable expectations and historical operating trends, in an amount equal to 100% of the principal of and interest coming due in each fiscal year on the Bonds. The rates shall be fixed and revised from time to time as may be necessary to produce these amounts, and the Village hereby covenants and agrees to fix and maintain rates in accordance with Act 94 for services furnished by the System at all times sufficient to provide for the foregoing.

Sec. 13. **Operating Year.** The System shall be operated on the basis of an operating year which corresponds to the fiscal year of the Village which currently commences on January 1 and ends on the last day of the following December.

Sec. 14. **Funds and Accounts, Flow of Funds.** The Village Treasurer shall be custodian of all funds belonging to or associated with the System. Such funds shall be deposited in the Depository Bank. The Village Treasurer is hereby directed to create and maintain for the Village the funds and accounts into which the proceeds of the Series 2008 Bonds and the Revenues shall be deposited in the manner and at the times provided in this Ordinance, which accounts shall be established and maintained so long as any of the Bonds remain unpaid, except as otherwise provided by this Ordinance. The proceeds of the Series 2008 Bonds shall be deposited in the manner provided by Section 17. All Revenues of the System shall be set aside as collected and credited to a separate depository account to be designated WATER SUPPLY SYSTEM RECEIVING FUND (the "Receiving Fund"). The Revenues credited to the Receiving Fund are pledged for the purpose of the following funds and shall be transferred within or debited from the Receiving

Fund periodically in the manner and at the times and in the order of priority hereinafter specified:

a. *Operation and Maintenance Fund.* Out of the Revenues credited to the Receiving Fund there shall be first set aside in, or credited to, a fund designated OPERATION AND MAINTENANCE FUND (the "Operation and Maintenance Fund"), monthly, a sum sufficient to provide for the payment of the next month's current expenses of administration and operation of the System and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order.

The Village Council, prior to the commencement of each operating year, shall adopt a budget covering the foregoing expenses for such year. During the course of the operating year, the total of such expenses shall not exceed the total amount specified in the budget, except by a majority vote of the members-elect of the Village Council.

b. *Bond and Interest Redemption Fund.* There shall be established and maintained a separate depository account designated BOND AND INTEREST REDEMPTION FUND (the "Redemption Fund"), the moneys on deposit therein from time to time to be used solely for the purpose of paying the principal of, redemption premiums (if any) and interest on the Bonds.

The Redemption Fund shall be divided for accounting purposes into separate sinking fund accounts for each series of Bonds issued pursuant to this Ordinance. Each such sinking fund subaccount shall be entitled "Series [year] Sinking Fund." The creation of such subaccounts shall not in any way prevent payment of any series of Bonds from moneys held in any and all of such subaccounts. Each sinking fund subaccount shall be held by the then bond registrar for the Bonds.

Out of the Revenues remaining in the Receiving Fund, after provision for the Operation and Maintenance Fund, there shall be set aside each month commencing the first day of the month immediately following delivery of an authorized series of Bonds in the Redemption Fund and credited to the sinking fund account for that series of Bonds a sum proportionately sufficient to provide for the payment when due of the current principal of and interest on the Bonds, less any amount in the Redemption Fund representing accrued interest on the Bonds or investment income on amounts on deposit in the applicable sinking fund subaccount and the Bond Reserve Account (to the extent attributable to said sinking fund subaccount) not previously used to reduce such amounts.

There is hereby established in the Redemption Fund the Series 2008 Sinking Fund. Commencing October 1, 2008, the amount set aside in the Series 2008 Sinking Fund each month for interest on the Series 2008 Bonds shall be 1/6 of the total amount of interest on the Bonds next coming due, less any interest earnings on the Series 2008 Sinking Fund and the Bond Reserve Account not previously used to reduce such amounts. Commencing October 1, 2009, and thereafter, the amount set

aside each month in the Series 2008 Sinking Fund for principal on the Series 2008 Bonds shall be an amount equal to 1/12 of the amount of principal next coming due by maturity, less any interest earnings on the Series 2008 Sinking Fund not previously used to reduce transfers to pay interest and less any amounts representing unexpended bond proceeds which are transferred to the Series 2008 Sinking Fund in accordance with Section 17. If there is any deficiency in the amount previously set aside, that deficiency shall be added to the next succeeding monthly requirements. The Village reserves the right to amend the set aside requirements for the Redemption Fund from a monthly basis to a quarterly basis.

The amount to be set aside for principal and interest on any date shall not exceed the amount which, when added to the money on deposit in the applicable sinking fund subaccount of the Redemption Fund, including investment income thereon, is necessary to pay principal of and interest due on the Bonds on the next succeeding interest payment date or principal and interest payment date. The Village shall provide in each ordinance authorizing Additional Bonds for the timing and method of transfers from the Receiving Fund to the sinking fund subaccount for such series of Bonds.

c. *Bond Reserve Account.* There is hereby established in the Redemption Fund a separate account to be known as the BOND RESERVE ACCOUNT (the “Bond Reserve Account”) as additional security for the Bonds. The Bond Reserve Account shall not be funded for the Series 2008 Bonds. All investment earnings in the Bond Reserve Account shall be transferred to the Redemption Fund and set aside on a pro rata basis in each sinking fund subaccount for payment of current principal and interest on the Bonds. If at any time there is a deficiency in the Redemption Fund and it shall be necessary to use moneys credited to the Bond Reserve Account for the payment of principal and interest on the Bonds, then the moneys so used shall be replaced over a period of not more than five (5) years from the Net Revenues first received thereafter which are not required for payment of the current principal and interest requirements on the Bonds. If at any time there is any excess in the Bond Reserve Account over the Bond Reserve Requirement, such excess shall be transferred to the related sinking fund subaccount and used to pay principal and interest on the related series of Bonds.

No further payments need be made into the Redemption Fund after enough principal on the Bonds has been paid so that the amount then held in the Redemption Fund (or its respective sinking fund subaccounts), including the Bond Reserve Account, is equal to the entire amount of principal and interest which will be payable at the time of maturity of the Bonds and the monies so held shall be used solely to pay the principal of and interest on the Bonds, including prepayment premium, if any, as the Bonds become due.

d. *Replacement and Improvement Fund.* There shall next be established and maintained a separate account, designated REPLACEMENT AND IMPROVEMENT FUND (the “Replacement and Improvement Fund”). The Replacement and Improvement Fund shall be used only for the purpose of making

repairs, replacements, additions, improvements, enlargements or extensions to the System, and when necessary, for the purpose of making payments of principal and interest on the Bonds, in the event moneys in any sinking fund subaccount of the Redemption Fund on any interest or interest and principal payment date is insufficient to pay such principal and interest coming due on such date. Out of the Revenues and moneys of the System remaining in the Receiving Fund each month after provision has been made for the deposit of moneys in the Operation and Maintenance Fund and the Redemption Fund (including the Bond Reserve Account), there may be deposited in the Replacement and Improvement Fund such additional funds as the Village Council may deem advisable. If at any time it shall be necessary to use moneys in the Replacement and Improvement Fund for the purpose for which the Replacement and Improvement Fund was established, the moneys so used shall be replaced from any moneys in the Receiving Fund which are not required by this Ordinance to be used for the Operation and Maintenance Fund or the Redemption Fund (including the Bond Reserve Account).

e. *Surplus Moneys.* Any Revenues in the Receiving Fund after satisfying all the foregoing requirements of this section may, at the discretion of the Issuer, be used for any of the following purposes:

- (1) Transfer to the Replacement and Improvement Fund.
- (2) Transfer to the Redemption Fund and used for the purchase of Bonds on the open market at not more than the fair market value thereof, or if applicable, used to redeem Bonds prior to maturity.
- (3) Any other use permitted by law.

Sec. 15. **Depository Bank.** Moneys in the several funds and accounts established pursuant to this Ordinance, except moneys in the Redemption Fund, including the Bond Reserve Account, and moneys derived from the proceeds of sale of the Bonds and deposited to the Construction Fund in accordance with Section 17, below, may be kept in one bank account with the Depository Bank, in which event the moneys in the bank account shall be allocated on the books and records of the Village and deposited to the funds and accounts herein established, in the manner and at the times provided in this Ordinance and law.

Sec. 16. **Reverse Flow of Funds; Surplus Moneys.** In the event the moneys in the Receiving Fund are insufficient to provide for the current requirements of the Operation and Maintenance Fund, the Redemption Fund (including the Bond Reserve Account), or the Replacement and Improvement Fund, any moneys and/or securities in the funds of the System, except for proceeds of the sale of the Series 2008 Bonds held in the Construction Fund in accordance with Section 17, shall be transferred first, to the Operation and Maintenance Fund, second, to the accounts in the Redemption Fund in the order of priority indicated above, and third, to the Replacement and Improvement Fund, to the extent necessary to satisfy the requirements for each such fund as provided in this Ordinance.

Sec. 17. **Bond Proceeds.** The proceeds of the sale of the Series 2008 Bonds shall be deposited in the Depository Bank in an account designated SERIES 2008 CONSTRUCTION FUND (the "Construction Fund"). Money in the Construction Fund shall be applied solely in payment of the cost of the Series 2008 Project, including any engineering, legal and other expenses incident thereto and to the financing thereof. No proceeds of the Series 2008 Bonds shall be used to pay capitalized interest. Payment for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file with the Village Council a signed statement to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor (including properly authorized change orders), that such work is satisfactory and that such work has not been previously paid for.

Any unexpended balance of the proceeds of the sale of the Series 2008 Bonds remaining after completion of the Series 2008 Project in the Construction Fund may, at the discretion of the Village, be used for further improvements, enlargements and extensions of the System, if, at the time of such expenditures, such use is approved by the Michigan Department of Treasury, if such permission is then required by law. Any remaining balance after such expenditure shall be paid to the Series 2008 Sinking Fund and may be used for the purpose of purchasing Series 2008 Bonds on the open market at not more than the fair market value thereof or used for the purpose of paying principal of the Series 2008 Bonds upon maturity. The foregoing is subject to the terms and conditions of the Purchase Contract and the Supplemental Agreement.

After completion of the Series 2008 Project and disposition of remaining proceeds, if any, of the Series 2008 Bonds pursuant to the provisions of this Section, the Construction Fund shall be closed.

Sec. 18. **Investments.** Moneys in the funds and accounts established herein may be invested by the Village Treasurer on behalf of the Village in Investment Obligations. Investment of moneys in the Redemption Fund being accumulated for payment of the next maturing principal or interest payment on the Bonds shall be limited to Government Obligations bearing maturity dates prior to the date of the next maturing principal or interest payment respectively on the Bonds. Investments of moneys in any other funds or accounts, including moneys derived from the proceeds of sale of the Bonds, shall be limited to obligations bearing maturity dates or subject to redemption, at the option of the holder thereof, not later than the time estimated by the Village when the moneys from such investments will be required. Any securities representing investments shall be kept on deposit with the bank or trust company having on deposit the fund or funds or account from which such purchase was made. Earnings or profits on any investment of funds in any fund or account established in this Ordinance shall be deposited in or credited to the fund or account to which the investment belongs unless otherwise provided in this Ordinance.

Sec. 19. **Covenants.** The Village covenants and agrees with the Registered Owners of the Bonds that so long as any of the Bonds are Outstanding Bonds and unpaid as to either principal or interest:

a. The Village will maintain the System in good repair and working order and will operate the same efficiently and will faithfully and punctually perform all duties with reference to the System required by the Constitution and laws of the State of Michigan and this Ordinance.

b. The Village will keep proper books of record and account separate from all other records and accounts of the Village, in which shall be made full and correct entries of all transactions relating to the System. The Village shall have an annual audit of the books of record and account of the System for the preceding operating year made each year by an independent certified public accountant. The auditor shall comment on the manner in which the Village is complying with the requirements of the Ordinance with respect to setting aside and investing moneys and meeting the requirements for acquiring and maintaining insurance. The audit shall be completed and so made available not later than six (6) months after the close of each operating year.

c. The Village will maintain and carry, for the benefit of the holders of the Bonds, insurance on all physical properties of the System and liability insurance, of the kinds and in the amounts normally carried by municipalities engaged in the operation of Water Supply systems. All moneys received for losses under any such insurance policies shall be applied solely to the replacement and restoration of the property damaged or destroyed, and to the extent not so used, shall be used for the purpose of redeeming or purchasing Bonds.

d. The Village will not sell, lease or dispose of the System, or any substantial part, until all of the Bonds have been paid in full, both as to principal and interest, or provision made therefor, as herein provided. The Village will operate the System as economically as possible, will make all repairs and replacements necessary to keep the System in good repair and working order, and will not do or suffer to be done any act which would affect the System in such a way as to have a material adverse effect on the security for the Bonds.

e. The Village will not grant any franchise or other rights to any person, firm or corporation to operate a system that will compete with the System and the Village will not operate a system that will compete with the System.

f. The Village will cause the Series 2008 Project to be acquired and constructed promptly and in accordance with the plans and specifications therefor.

g. With respect to the Series 2008 Bonds, the Village shall comply with all terms and conditions of the Purchase Contract and the Supplemental Agreement.

Sec. 20. **Additional Bonds.** The Village shall not issue Additional Bonds payable from the Revenues of the System which shall be of equal standing

and priority of lien on the Net Revenues of the System with the Bonds except for the following purposes and under the following terms and conditions:

a. To complete the Series 2008 Project, in accordance with the plans and specifications therefor. Such Bonds shall not be authorized unless the engineers in charge of construction shall execute a certificate evidencing the fact that additional funds are needed to complete the Series 2008 Project in accordance with the plans and specifications therefor and stating the amount that will be required to complete the Series 2008 Project. If such certificate shall be so executed and filed with the Village, it shall be the duty of the Village to provide for and issue additional revenue bonds in the amount stated in this certificate to be necessary to complete the Series 2008 Project in accordance with the plans and specifications plus an amount necessary to issue such bonds and deposits which may be required to be made to the Bond Reserve Account necessary for such Additional Bonds or to provide for part or all of such amount from other sources.

b. For subsequent repairs, extensions, enlargements and improvements to the System and paying costs of issuing such Additional Bonds, including deposits which may be required to be made to the Bond Reserve Account. Bonds for such purposes shall not be issued pursuant to this subparagraph (b) unless the Adjusted Net Revenues of the System for the last two (2) preceding twelve-month operating years or the Adjusted Net Revenues for the last preceding twelve-month operating year, if the same shall be lower than the average, shall be equal to at least one hundred percent (100%) of the maximum amount of principal and interest thereafter maturing in any operating year on the then outstanding Bonds, and on the Additional Bonds then being issued. For purposes of this subparagraph (b), the Village may elect to use as the last preceding operating year any operating year ending not more than sixteen months prior to the date of delivery of the Additional Bonds and as the next to the last preceding operating year, any operating year ending not more than twenty-eight months from the date of delivery of the Additional Bonds. Determination by the Village as to existence of conditions permitting the issuance of Additional Bonds shall be conclusive. No Additional Bonds of equal standing as to the Net Revenues of the System shall be issued pursuant to the authorization contained in this subparagraph if the Village shall then be in default in making its required payments to the Operation and Maintenance Fund or the Redemption Fund.

c. For refunding a part of the Outstanding Bonds and paying costs of issuing such Additional Bonds including deposits which may be required to be made to the Bond Reserve Account.

Notwithstanding the foregoing, the Village may issue bonds which shall be junior and subordinate to the Bonds.

Sec. 21. **Appointment of Receiver and Statutory Rights.** In the event of a default in the punctual payment of principal of and interest on the Bonds when due, any Court having jurisdiction in any proper action may appoint a receiver of the System in accordance with the provisions of Act 94. The Registered Owners

of Bonds representing in the aggregate principal amount not less than twenty percent (20%) of all Outstanding Bonds, may protect and enforce the statutory lien and pledge of the funds and accounts and Net Revenues created by Act 94, and enforce and compel the performance of all duties of the officials of the Village and the Council, including the fixing of sufficient rates, the collection of Revenues, the proper segregation of Revenues, and the proper application of Revenues. In addition to the rights conferred to Registered Owners by the Ordinance, the Registered Owners shall have all the rights conferred by Act 94. The statutory lien upon the Net Revenues, however, shall not be construed to compel the sale of the System or any part thereof.

Sec. 22. **Remedies Not Exclusive.** No remedy by the terms of the Ordinance conferred upon or reserved to the Registered Owners is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under the Ordinance or existing at law or in equity or by statute on or after the date of the Ordinance.

Sec. 23. **Effect of Waiver and Other Circumstances.** No delay or omission of any Registered Owner to exercise any right or power arising upon the happening of an event of default shall impair any right or power or shall be construed to be a waiver of any such event of default or be an acquiescence therein and every power and remedy given by this Ordinance to the Registered Owners may be exercised from time to time and as often as may be deemed expedient by the Registered Owners.

Sec. 24. **Tax Covenant; Qualified Tax Exempt Obligation.** The Village covenants to comply with all requirements of the Code necessary to assure that the interest on the Series 2008 Bonds will be and will remain excludable from gross income for federal income taxation (as opposed to alternative minimum or other indirect taxation). The Village hereby designates the Series 2008 Bonds as “qualified tax exempt obligations” for purposes of deduction of interest expense by financial institutions under the provisions of Section 265(b)(3) of the Code, it being reasonably anticipated that the aggregate amount of qualified tax exempt obligations which will be issued by the Village and all subordinate entities to the Village shall not exceed \$10,000,000 during calendar year 2008. In addition, the Series 2008 Bonds and the interest thereon shall be exempt from taxation by the State of Michigan or by any taxing authority within the state of Michigan.

Sec. 25. **Negotiated Sale of Bonds.** The President and Clerk are hereby authorized to sell the Series 2008 Bonds at a negotiated sale to the Authority, in accordance with the Purchase Contract, the Supplemental Agreement and applicable state law and to do all other things necessary to effectuate the sale, issuance, delivery, transfer and exchange of the Series 2008 Bonds in accordance with the provisions of this resolution. The Series 2008 Bonds shall be sold at a negotiated sale instead of a competitive sale to take advantage of the terms and conditions of the Authority’s Drinking Water Revolving Fund Loan Program,

including the fixed rate of interest of 2.50% per annum for all maturities of the Series 2008 Bonds, which is below prevailing open market interest rates.

Sec. 26. **Disclosure of Information.** The Village agrees to provide the Authority in a timely manner with all information and documents regarding the Village and the Series 2008 Bonds, including an official statement that the Authority or its bond underwriters need to meet any Securities and Exchange Commission regulation, any industry standard or other federal or state regulation which imposes a disclosure requirement or continuing disclosure requirement relating to any Authority bond issue which was used or is needed to provide monies to the fund used to purchase the Series 2008 Bonds or relating to any other Authority bond issue which was used by the Authority to purchase an obligation of the Village. In furtherance of the above, the Village also agrees that upon the request of the Authority it will promptly execute and deliver a continuing disclosure undertaking in form and substance determined by the Authority to be necessary or desirable to assist the Authority or its underwriters in complying with Rule 15c2-12 promulgated by the Securities and Exchange Commission. If required, such continuing disclosure undertaking shall be executed by the President and the Clerk.

Sec. 27. **Michigan Department of Treasury.** The Village, acting with the assistance of Bond Counsel for the Series 2008 Project, shall obtain approval from the Michigan Department of Treasury for the issuance of the Series 2008 Bonds either by filing a municipal finance qualifying statement or submitting a prior approval application in accordance with Act 34 of the Public Acts of Michigan of 2001, as amended, and the Village President is hereby authorized and directed to file any required documents.

Sec. 28. **Delivery of Series 2008 Bonds.** The Series 2008 Bonds shall be executed in the manner provided by Section 5 in substantially the form approved with such necessary variations, omissions, corrections and insertions as the President and Village Clerk deem appropriate and are required for and on behalf of the Village. Upon execution of the Series 2008 Bonds, the Village Treasurer is hereby authorized and directed to deliver or cause to be delivered the Bonds to the Bond Registrar for authentication and, in turn to the purchaser thereof, upon receipt of the purchase price therefor. The proceeds of the Series 2008 Bonds shall be deposited into the Receiving Fund and the Construction Fund as provided in Section 17, above.

The President, Clerk and Treasurer are authorized and directed to execute and deliver on behalf of the Village such other certificates, affidavits, investment agreements or other documents or instruments as may be required by the purchaser of the Series 2008 Bonds or bond counsel or convenient to effectuate the execution and delivery of the Series 2008 Bonds.

The Village shall furnish the Series 2008 Bonds ready for execution without expense to the purchaser. The Village shall also furnish without expense to the purchaser at the time of delivery of the Series 2008 Bonds, the approving opinion of Mika, Meyers, Beckett & Jones, PLC, Attorneys, Grand Rapids, Michigan,

approving the legality of the Series 2008 Bonds. The Series 2008 Bonds will be delivered at the expense of the Village in the manner and at the location as agreed upon with the purchaser thereof.

Sec. 29. **Ordinance to Constitute Contract.** In consideration of the purchase and acceptance of any and all of the Bonds authorized to be issued hereunder by those who shall hold the same from time to time, this Ordinance shall be deemed to be and shall constitute a contract between the Village and the Registered Owners from time to time of the Bonds and the lien and pledge made in this Ordinance and the covenants and agreements herein set forth to be performed on behalf of the Village shall be for the equal benefit, protection and security of the Registered Owners of any and all of the Bonds, all of which, regardless of the time or times of their authentication and delivery or maturity, shall be of equal rank without preference, priority or distinction of any of the Bonds over any other thereof except as expressly provided in or permitted by this Ordinance.

Sec. 30. **Conflicting Ordinances.** All ordinances, resolutions or orders, or parts thereof, in conflict with the provisions of this Ordinance are repealed.

Sec. 31. **Severability and Paragraph Headings.** If any section, paragraph, clause or provision of this Ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provisions shall not affect any of the other provisions of this Ordinance. The paragraph headings in this Ordinance are furnished for convenience of reference only and shall not be considered to be a part of this Ordinance.

Sec. 32. **Publication and Recordation.** This Ordinance shall be published in full in the *Coopersville Observer*, a newspaper of general circulation in the Village qualified under State law to publish legal notices, promptly after its adoption, and shall be recorded in the Ordinance Book of the Village and such recording authenticated by the signatures of the President and the Village Clerk.

Sec. 33. **Effective Date.** In accordance with Act 94, this Ordinance shall become effective immediately upon its adoption.

Passed and adopted by the Village Council of the Village of Ravenna, County of Muskegon, Michigan, on August 12, 2008, and approved by me on August 12, 2008.

WATER REVENUE BONDS (GENERAL OBLIGATION LIMITED TAX), SERIES 2008

No. R-1

REGISTERED OWNER: Michigan Municipal Bond Authority

PRINCIPAL AMOUNT:

INTEREST RATE: Two and one-half percent (2.50%) per annum

DATE OF ORIGINAL ISSUE AND REGISTRATION: The date each installment portion of the Principal Amount was delivered to the Registered Owner in accordance with the Purchase Contract and Supplemental Agreement.

KNOW ALL MEN BY THESE PRESENTS, that the Village of Ravenna, County of Muskegon, State of Michigan (the "Village" or "Issuer"), acknowledges itself indebted and for value received, hereby promises to pay the Principal Amount shown above to the Registered Owner specified above or its registered assigns shown as the owner of record of this bond on the books of the Village Treasurer, Ravenna, Michigan, as bond registrar (the "Bond Registrar") on the applicable date of record, in installments in the amounts and on the dates as set forth in Schedule I, attached hereto and made a part hereof, with interest thereon from the Date of Original Issue and Registration specified above until paid at the Interest Rate per annum specified above, first payable April 1, 2009 and semi-annually thereafter and principal is payable on the first day of October commencing October 1, 2010 (as identified in the Purchase Contract) and annually thereafter. Payment of principal and interest shall be paid to the Registered Owner hereof by the Bond Registrar by first class mail. The date of record shall be each March 15 and September 15 with respect to the payments due on each April 1 and October 1, respectively. Principal and interest are payable in lawful money of the United States of America.

The Village promises to pay to the Michigan Municipal Bond Authority (the "Authority") the principal amount of the Bond or so much thereof as shall have been advanced to the Village pursuant to a Purchase Contract between the Village and the Authority and a Supplemental Agreement by and among the Village, the Authority and the State of Michigan acting through the Department of Environmental Quality.

During the time funds are being drawn down by the Village under this Bond, the Authority will periodically provide the Village a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the Authority to provide such a statement or to reflect a disbursement or the correct amount of a disbursement shall relieve the Village of its obligation to repay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of this Bond. The Village acknowledges that in the event the principal amount of the loan evidenced by the Bonds is reduced by the Authority in accordance with Schedule I attached hereto or the Supplemental Agreement, the Authority will prepare a revised Schedule I to the Bond that is calculated so that the principal payments are rounded to the nearest dollar and which revised Schedule I shall be effective upon receipt by the Village.

In the event of a default in the payment of principal or interest hereon when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the “additional interest”) at a rate equal to the rate of interest which is two percent above the Authority’s cost of providing funds (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase this Bond but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the Authority (as determined by the Authority) as a consequence of the Village’s default. Such additional interest shall be payable on the interest payment date following demand of the Authority. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase this Bond fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such account, the Village shall and hereby agrees to pay on demand only the Village’s pro rata share (as determined by the Authority) of such deficiency as additional interest on this Bond.

Bonds may be subject to redemption prior to maturity by the Village only with the prior written consent of the Authority and on such terms as may be required by the Authority.

Notwithstanding any other provision of this Bond, so long as the Authority is the owner of this Bond, (a) this Bond is payable as to principal, premium, if any, and interest at The Bank of New York Mellon Trust Company N.A. or at such other place as shall be designated in writing to the Village by the Authority (the “Authority’s Depository”); (b) the Village agrees that it will deposit with the Authority’s Depository payments of the principal of, premium, if any, and interest on this Bond in immediately available funds by 12:00 noon at least five business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; in the event that the Authority’s Depository has not received the Village’s deposit by 12:00 noon on the scheduled day, the Village shall immediately pay to the Authority as invoiced by the Authority an amount to recover the Authority’s administrative costs and lost investment earnings attributable to that late payment; and (c) written notice of any redemption of this Bond shall be given by the Village and received by the Authority’s Depository at least 40 days prior to the date on which such redemption is to be made.

The revenues of the Village of Ravenna Water Supply System (the “System”), including all appurtenances, additions, extensions and improvements thereto, after provision has been made for reasonable and necessary expenses of operation, maintenance and administration of the System, exclusive of depreciation (the “Net Revenues”), are irrevocably pledged for the prompt payment of principal and interest on this Bond on a parity basis with bonds of equal standing and a first priority statutory lien thereon has been created. The principal of and interest on this Bond shall be payable in lawful money of the United States.

This bond is issued pursuant to Ordinance No. _____ (the “Ordinance”), duly adopted by the Village Council of the Village and under and in full compliance with the Constitution and statutes of the State of Michigan, including specifically Act 94 of the Public Acts of Michigan of 1933, as amended, for the purpose of paying a portion of the cost of improvements.

This bond is a self liquidating bond payable, both as to Principal Amount and interest, primarily from the Net Revenues of the System. The Principal Amount and interest thereon are secured by a first priority statutory lien on the Net Revenues of the System on a parity basis with bonds of equal standing. In addition, the Village has pledged its full faith and credit as additional security for the payment of the Principal Amount and the interest hereon.

The Village has covenanted and agreed, and does hereby covenant and agree to fix and maintain at all times while any bonds payable from the Net Revenues of the System shall be outstanding, such rates for service furnished by the System as shall be sufficient, when taken together with Net Revenues, to provide for payment of the principal of and interest on the bonds of this issue and any other bonds payable from the Net Revenues as and when the same shall become due and payable, and to provide for the payment of expenses of administration and operation and such expenses for maintenance of the System as are necessary to preserve the same in good repair and working order, and to provide for such other expenditures and funds for the System as are required by the Ordinance. In addition, the Village has covenanted to operate the System so as to provide Net Revenues equal to at least 100% of debt service on all bonds payable from the Net Revenues of the System in each year.

For a complete statement of the revenues from which and the conditions under which this bond is payable, a statement of the conditions under which additional bonds of equal standing may hereafter be issued, the rights and limitations on the owners of the bonds and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Ordinance.

This bond is transferable only upon the registration books of the Village kept by the Bond Registrar by the registered owner hereof in person, or by his attorney duly authorized in writing, upon the surrender of this bond together with a written instrument of transfer satisfactory to the Bond Registrar duly executed by the registered owner or its attorney duly authorized in writing, and thereupon a new registered bond or bonds in the same aggregate principal amount and of the same maturity shall be issued to the transferee in exchange therefor as provided in the Ordinance, and upon the payment of the charges, if any, therein prescribed.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this bond and the series of bonds of which this is one have been done and performed in regular and due time and form as required by law.

This bond is not valid or obligatory for any purpose until the Certificate of Registration and Authentication on this bond has been executed by the Bond Registrar.

IN WITNESS WHEREOF, the Village of Ravenna, County of Muskegon, State of Michigan, by its Village Council, has caused this bond to be executed by its President and its Village Clerk and its corporate seal to be affixed on this bond all as of the Date of Original Issue.

- A. **Construction Account.** The proceeds of the bonds hereby authorized shall be deposited in the Construction Account in the Security First Bank and Trust Company, Ravenna Branch, Ravenna, Michigan, a bank insured by the Federal Deposit Insurance Corporation. In the event the government is a holder of any of the bonds herein authorized, then said account shall be established as a supervised bank account and such proceeds shall be withdrawn on the orders of the Village Council of the Village of Ravenna only on checks signed by the Treasurer of the Village and countersigned by the County Supervisor of the Farmers Home Administration.  - (1) The sewer main shall be extended to the premises in a public right-of-way, or in an easement owned by the public to the premises in question. If the sewer is to be extended for the purpose of serving a new development, including but not limited to a site condominium, subdivision, or division of land which involves the installation of a new public or private road, the sewer main shall be extended throughout such new road so that the sewer abuts all units or lots within the development, within an easement dedicated to the public if not located in a public street right-of-way.
 - (2) If a sewer main is extended to a premises, the main shall be installed across the entire frontage of the premises served, to the border of the adjacent premises. For developments for which a new public or private road is constructed, the sewer main shall be extended across the entire frontage of the development on the existing adjacent public or private road, in addition to being extended within the new road to all lots or units within the development. All sewer main extensions shall be located within an easement dedicated to the public, if not located in a public street right-of-way.
 - (3) The sewer main shall be constructed in accordance with specifications approved by the Village.
 - (4) The design, planning and construction of the sewer main and related facilities shall comply with all State and County requirements and approval procedures.

- (5) Upon completion of the sewer main, verification by the Village's inspector that it has been properly constructed, and proof that all contractors have been paid for the cost thereof (including lien waivers if requested), the sewer main shall be dedicated to the Village, without cost to the Village. Upon acceptance of dedication, the Village shall thereafter be responsible for maintenance of the sewer main. The Village shall be assigned, or be a third party beneficiary of, all construction contracts and material and equipment warranties.
- (6) The person responsible for installing the sewer shall reimburse the Village for the cost to review plans and specifications of the sewer extension including, but not limited to, costs of the Village's engineer to review said plans and specifications, and the cost of acquisition of right-of-way, if necessary, including attorney fees, appraisal fees, cost of land title research and all other expenses of any condemnation proceedings. The person responsible for installing the sewer shall pay an amount to the Village, in advance, at least equal to the estimated fees for such review and acquisition. Any excess not required to complete the improvements shall be refunded to the responsible party; any shortfall shall be paid before connection of any premises is permitted.
- (7) The entire cost of installation of the sewer main, including but not limited to engineering, construction, permits and restoration shall be paid by the owner or owners of the premises to whom sewer is being extended.
- (8) In addition to the extension of a sewer main as required, the owner of premises to be connected to the System shall, in the Village's sole discretion, either (a) reimburse the Village for the cost of making improvements to downstream facilities, which are necessary as a result of the additional connections proposed to be made by the owner of the premises or by a development which will be provided with public sewer including, but not limited to, increasing the size of downstream sewer mains to provide sufficient capacity, increase in the capacity of lift stations, and increase in treatment capacity of the Wastewater Treatment Plant ("Downstream Improvements"), or (b) undertake and make the Downstream Improvements in accordance with the Village's specifications. In the event the Village determines that the owner is to reimburse the Village for the Downstream Improvements, the responsible party and the Village shall enter into an agreement whereby the responsible party pays to the Village, in advance, an amount equal to at least the estimated cost of making such improvements. Any excess not required to complete the improvements shall be refunded to the responsible party; any shortfall shall be paid before connection of any premises is permitted.

(9) In the Village Council's sole discretion, the Village Council may require the person requesting the sewer extension or required to construct a sewer extension to provide at the sole expense of said person an engineering report by a consulting engineer acceptable to the Village addressing the cost and feasibility of the proposed extension in the context of the foregoing conditions.

F. Sewer Extension Agreements. The Village shall have the authority to negotiate agreements for sewer extensions with landowners, developers and other municipalities, which agreements may take into consideration issues of demand, benefit, capacity, necessity, timing and funding and may provide for construction advances, prepayment of rates and charges, pay back arrangements of up to 15 years and similar matters.

- C. Grease, oil, and sand interceptors shall be provided when, in the opinion of the said Inspector, they are necessary for the proper handling of liquid wastes containing grease in excessive amount or any flammable wastes, sand, and other harmful ingredients except that such interceptors shall not be required for private living quarters or dwelling units. This section has been adopted in accordance with Act 222 of the Public Acts of Michigan of 2001 (“Act 222”) to set forth the notice and claim procedures applicable to an overflow or backup of the Public Sewer, which, as defined in Act 222, shall be referred to for purposes of this Section as a “Sewage Disposal System Event.” To afford property owners, individuals and the Village greater efficiency, certainty and consistency in the provision of relief for damages or physical injuries caused by a Sewage Disposal System Event, the Village and any Person making a claim for economic damages, which, as defined in Act 222, shall be referred to for purposes of this Section as a “Claimant,” shall follow the following procedures:

- A. A Claimant is not entitled to compensation unless the Claimant notifies the Village of a claim of damage or physical injury, in writing, within 45 days after the date the damage or physical injury was discovered by the Claimant, or in the exercise of reasonable diligence should have been discovered by the Claimant.
- B. The written notice under subsection A shall contain the Claimant’s name, address, and telephone number, the address of the affected property, the date of discovery of any property damages or physical injuries, and a brief description of the claim. - E. If the Village is notified of a claim under subsection A and the Village believes that a different or additional governmental agency may be responsible for the claimed property damages or physical injuries, the Village

shall notify the contacting agency of each additional or different governmental agency of that fact, in writing, within 15 business days after the date the Village receives the Claimant's notice under subsection A.

- F. If the Village receives a notice from a Claimant or a different or additional governmental agency that complies with this Section, the Village may inspect the damaged property or investigate the physical injury. A Claimant or the owner or occupant of affected property shall not unreasonably refuse to allow the Village or its duly authorized representatives to inspect damaged property or investigate a physical injury.

- G. Prior to a determination of payment of compensation by the Village, the Claimant shall provide to the Village additional documentation and proof that:
 - (1) At the time of the Sewage Disposal System Event, the Village owned or operated, or directly or indirectly discharged into, that portion of the Public Sewer that allegedly caused damage or physical injury;
 - (2) The Public Sewer had a defect;
 - (3) The Village knew, or in the exercise of reasonable diligence, should have known, about the defect in the Public Sewer;
 - (4) The Village, having the legal authority to do so, failed to take reasonable steps in a reasonable amount of time to repair, correct or remedy the defect in the Public Sewer; and
 - (5) The defect in the Public Sewer was a proximate cause that was 50% or more of the cause of the Sewage Disposal System Event and the property damage or physical injury.

- H. Prior to a determination of payment of compensation by the Village, the Claimant shall also provide to the Village additional documentation and proof that neither of the following were a proximate cause that was 50% or more of the cause of the Sewage Disposal System Event:
 - (1) An obstruction in a Building Drain or a Building Sewer that was not caused by the Village; or,
 - (2) A connection on the affected premises, including, but not limited to, a footing drain, sump system, surface drain, gutter, down spout or connection of any other sort that discharged any storm water, surface water, ground water, roof runoff, sub surface drainage, cooling water, unpolluted air conditioning water or unpolluted industrial process waters to the Public Sewer.

- I. If the Village and a Claimant do not reach an agreement on the amount of compensation for the property damages or physical injury within 45 days after the receipt of notice under subsection A, the Claimant may institute a civil action in accordance with Act 222.
- J. To facilitate compliance with this section, the Village shall make available to the public information about the notice and claim procedures under this Section.
- K. The notice and claim procedures set forth in this Section shall be applicable to a Sewage Disposal System Event involving the Public Sewer.
- L. In the event of a conflict between the notice and claim procedures set forth in this Section and the specific requirements of Act 222, the specific requirements of Act 222 shall control.
- M. As provided in Section 19(7) of Act 222, the notice and claim procedures of this Section do not apply to claims for non-economic damages (as defined in Act 222) arising out of a Sewage Disposal System Event.
- N. Any word, term or phrase used in this Section, if defined in Act 222, shall have the same meaning provided under Act 222.

An Ordinance to establish regulations for the construction and repairs of sidewalks within the Village, to establish a procedure for determining the necessity of repair to sidewalks, to regulate the use and maintenance of sidewalks, and to provide penalties for violations of this Ordinance.

THE VILLAGE OF RAVENNA, MUSKEGON COUNTY, MICHIGAN ORDAINS:

123.001 Standards; rules and regulations.

Sec. 1. All sidewalks shall be constructed and repaired in accordance with standard practices in the industry and rules and regulations as established from time to time by Council. Such rules and regulations shall be in writing and filed with the Clerk. Copies of the rules and regulations shall be available for purchase at a cost established by the Clerk.

123.002 Determination of need of repair; notices.

Sec. 2. Whenever the designated inspector and Council concur that a sidewalk is unsafe for use, written notice thereof shall be given to the owner of the abutting premises by mail to the last known addition [address] of such owner. If all these options are unavailable, the notice may be posted in a conspicuous place on the premises. The notice shall specify the condition to be repaired and the nature of the repair, along with any other relevant information that Council deemed appropriate.

123.003 Hearings.

Sec. 3. A hearing before Council shall be granted to a property owner notified under Section 2 [Section 123.002], provided that such hearing is requested within fifteen (15) days of the date of the notice. The purpose of the hearing shall be solely to determine if the need for sidewalk repair and/or replacement actually exists.

The hearing shall be requested through the office of the Clerk, who shall make every effort to resolve the dispute. If the Clerk and the property owner are unable to resolve the matter, the Clerk shall schedule the hearing as part of the regular Council agenda and shall notify the property owner of the hearing date as soon as possible.

123.004 Repairs by property owner.

Sec. 4. A property owner notified under Section 2 [Section 123.002] who elects to repair his or her own sidewalk shall notify the Clerk within ten dates [days] of the date of the notice. The property owner shall have thirty (30) days to pay the amount of the bill without further action by the Village. At the time the report and bill are mailed, the owner's share of the cost becomes a lien upon the property.

If the property owner fails to pay the bill within the specified thirty (30) day period, the Clerk shall forward the cost to the Assessor. The Assessor shall then add an additional ten (10%) percent to the cost and place the total amount as an assessment upon the property

At any time following such thirty (30) day period, the property owner may pay the assessment in full.

OPERATION AND MAINTENANCE; SERVICE DISTRICT**

Section 301. Ownership; Operation and Maintenance of System. The Water System is owned, operated, maintained and managed by the Village in accordance with the terms of the Ordinance. The Village may employ such Person or Persons in such capacity or capacities as it deems advisable to carry out the efficient management and operation of the Water System and may make such rules, orders and regulations as the Village deems advisable and necessary to assure the efficient management and operation of the Water System.

Section 302. Maintenance and Repair of Service Line. The owner of a Premises is responsible for the maintenance and repair of the Plumbing System and Service Line located on said Premises.

Section 303. Public Water. Only Public Water shall be used in the Water System. No other source of water, raw or otherwise, shall be tapped into, piped into or connected into, directly or indirectly, the Water System, unless permitted under Article 10.

Section 304. Right to Restrict Use of Public Water. The Village may, by resolution, regulate, limit or prohibit the use of Public Water for any purpose. Such regulations shall restrict less essential water use (e.g. lawn sprinkling and irrigation) to the extent deemed necessary to assure an adequate supply for essential domestic and commercial needs and for fire fighting.

Section 305. Abatement of Public Nuisance. This Ordinance shall not be construed to limit the power of the Village to order the immediate and complete abatement of a public nuisance or menace to the public health.

Section 306. Water Available Within Service District. Subject to the terms and conditions of this Ordinance, Public Water shall only be made available from the Water System to properties located within the Service District. The Village Council reserves the right to amend or expand the Service District to include additional lands, in the exercise in the sole discretion by the Village Council of the Village’s police powers and such decision may, without limitation, be based

upon any of the following considerations: the capacity of the Water System; the number of Customers currently connected to the Water System; the amount of vacant undeveloped lands contained within the Service District, the likelihood of its development and whether such lands are subject to a special assessment; the portion of remaining available capacity in the Water System needed to alleviate and avoid public health concerns in the Service District; the cost of the extension of the Water System; and the means of funding the cost of the extension of the Water System.

ARTICLE 4 USE OF PUBLIC WATER

Section 401. Connection to System. As a matter of public health, a connection to the Public Water System required hereunder, shall be completed with respect to existing improved Premises upon the failure of the existing water well. The existing water well shall be considered to have failed for this purpose if a new water well needs to be drilled in order to provide an adequate supply of Potable water to the Premises. Newly constructed structures requiring the use of Potable Water shall be connected to the Public Water System, if available, prior to the issuance of an occupancy permit. Persons who fail to complete a required connection to the Public Water System shall be liable for a civil penalty equal in amount to the Readiness to Serve Fee and Commodity Fee that would have accrued based upon reasonably expected water usage and been payable had the connection been made when and as required. Public Water is deemed to be “available” if an improved Premises within the Village is used for human occupancy, employment, recreation, or other purposes, requires the use of Potable Water and abuts any right-of-way, easement, highway, street, or public way in which there is now or hereafter located a public water main.

Section 402. Enforcement in the Event of a Failure to Connect. In the event a required connection to the Water System is not made at the time required by Section 401, the Village shall require the connection to be made immediately after notice given by first class or certified mail or by posting on the property. The notice shall give the approximate location of the available Water System and shall advise the owner of the affected property of the requirement and enforcement provisions provided by Village Ordinance. In the event the required connection is not made within 30 days after the date of mailing or posting of the written notice, the Village may bring an action in a court of competent jurisdiction for a mandatory injunction or court order to compel the property owner to immediately connect the affected property to the Water System.

Section 403. Voluntary Extension of and Connection to Water System in Service District. The owner of an improved Premises, now situated or hereafter constructed within the Service District, but not located adjacent to a public water main (within the meaning of Section 401), may elect to extend the Water System with respect to the affected property in accordance with Section 801 and connect thereto. The owner of the property in this circumstance shall, in addition to all requirements imposed by this Ordinance, pay all expenses of the extension of the Water System. The owner of an improved Premises, now situated or hereafter constructed within the Service District and located adjacent to a public water main located in a right of way, easement, highway, street or public way which crosses, adjoins or abuts upon the property, may elect to connect said structure to the Water System in compliance with this Ordinance.

Section 404. Private Water Wells. A property owner that is not connected to the Water System or is not required to connect to the Water System as required by Section 401 shall install and maintain a private water well on the Premises. After a Premises is connected to the Water System, the existing private water well shall either (i) be capped and abandoned in accordance with applicable county and state requirements or (ii) maintained for Nonpotable use. For purposes of this section, permissible Nonpotable uses include lawn watering, irrigation, automobile or equipment washing, use in a building's heating or cooling system and similar uses not involving human consumption or prolonged bodily contact. All fixtures connected to a private water well maintained for Nonpotable use shall be located outside of structures intended for human occupancy, employment, recreation or similar purposes. In addition, piping connected to a private water well shall be physically and completely separated from all plumbing used for Public Water in accordance with Article 10 of this Ordinance.

Service Connections shall be installed only at the Customer's expense by the Village or by an Approved contractor and only after approval of the permit application by the Village. Prior to the installation of a new Service Connection or construction in the public right-of-way by an Approved contractor, a surety bond shall be filed with the Village in form acceptable to the Village in the amount of \$5,000 which indemnifies the Village and its authorized representatives from any loss resulting from said installation or construction. Provision of such surety bond shall not limit liability for damage to the System or other public or private property.

Section 502. Application for Permit; Payment of Fees and Charges. Prior to the connection of a Service Line to a Service Connection, a prospective Customer must file a permit application on a form to be supplied by the Village. The application must be accompanied by payment in full of the fees and charges set forth in Section 1104 and such other charges or deposits required by this Ordinance.

All Service Connections and Service Lines must be laid on solid ground not less than five feet below finished grade and all components of the Service Connection and the Service Line must be left uncovered until the installation is inspected by the Village or its authorized representative.

Section 506. No Obstruction of System Components. No Person shall obstruct or interfere in any way with any Service Connection or other appurtenance of the System, including Meters, by placing in, on or about said Service Connection, Meter, or other appurtenance, building materials, rubbish, shrubbery, flowers, or otherwise hindering the easy and free access thereto.

Section 507. Repair and Thawing of Service Lines. Service Lines shall be protected from damage of every nature and needed repairs shall be made by the Customer when notified by the Village. The expense of repairing or thawing the Service Line, if frozen, shall be borne by the Customer. The Service Line, as repaired or thawed, shall not be covered until inspected and approved by the Village or its authorized representatives.

Section 508. Discontinuation of Service. The Village may discontinue service if a Customer fails to maintain the Service Line in a leak-free condition or if the Customer makes an unauthorized plumbing connection which bypasses the Meter.

Section 509. No Multiple Connections. A single Service Connection shall not serve more than one (1) Premises unless approved by the Village, even though the ownership of the adjacent Premises may be the same.

Section 510. Excavation. All excavations for Service Connection installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the Village at the Customer's expense.

Section 511. Public Right of Way. It shall be the obligation of the Customer (or the Customer's approved contractor) to obtain all required permits from the Muskegon County Road Commission or the Michigan Department of Transportation prior to working in a county road or state highway right of way.

ARTICLE 6 METERS

Section 601. Use and Installation of Meters. The Public Water used by a Customer shall be metered. Each Customer shall, at the Customer's expense, purchase and install a meter, readout, meter horn and valves. The Meter will be tested and maintained by the Village at the Customer's expense and shall remain the property of and under control of the Village.

Section 602. Size; Specification. Meters for ordinary domestic service shall be of 3/4 inch x 3/4 inch size. The Meter shall contain remote readouts. A separate valve the same size as the Service Line shall be installed on the Service Line on both sides of the Meter. Where application for a larger service is made, determination as to meter size shall be made by the Village. Larger sizes may be required for an Industrial Customer, a Commercial Customer or multiple dwelling use. All Meters shall comply with Village specifications.

Section 603. Accessible Location. Meters shall be set in an accessible location and in a manner approved by the Village. If due to unusual circumstances it is necessary to place the Meter in a pit, the pit shall be installed in accordance with Village standards at the expense of the Customer.

Section 604. Access to Meter. The Village shall have the right to shut off the Public Water to any Customer if access is not available to the Meter. Qualified employees of the Village shall at all reasonable hours have the right to enter the Premises where such Meters are installed, for the purpose of reading, testing, removing or inspecting same and no Person shall hinder, obstruct, or interfere with any such employee in the discharge of his or her duties.

Section 605. Damages to Meter. Any damages to a Meter resulting from carelessness or neglect of a Customer to properly secure and protect the Meter from damages caused by frost, hot water, steam or other misuse shall be paid for by the Customer as a Miscellaneous Customer Fee upon presentation of the bill therefore.

Section 606. Failure of Meter. If any Meter shall fail to register properly, the Village shall estimate the consumption of Public Water and bill accordingly.

Section 607. Accuracy of Meter. A Meter shall be considered accurate if when tested it registers neither 2% more than nor 2% less than the actual quantity of Public Water passing through it. If a Meter registers in excess of 2% more than the actual quantity of Public Water passing through it, it shall be considered “fast” to that extent. If a Meter registers in excess of 2% less than the actual quantity of Public Water passing through it, it shall be considered “slow” to that extent.

Section 608. Corrected Billings. If a Meter has been tested and is determined to register “fast” the Village shall credit the Customer with a sum equal to the percentage “fast” multiplied by the amount of the Commodity Fee incurred by said Customer within the six months prior to the test. If a Meter so tested is determined to register “slow” the Village may collect from the Customer a sum equal to the percentage found “slow” multiplied by the amount of the Commodity Fee incurred by the Customer within the six months prior to the test.

Section 609. Lockable By-Pass. An approved lockable by-pass shall be installed on each meter larger than 3/4 inch x 3/4 inch size.

ARTICLE 7 FIRE HYDRANTS

Section 701. Use of Fire Hydrants; Fire Hydrant Fee. No Person shall open or cause to be opened any fire hydrant except for authorized representatives of the Village, except in the case of an emergency, without first securing a “Permit to Use Fire Hydrant” from the Village and paying a Fire Hydrant Fee in the amount established from time to time by resolution of the Village Council. Application for said permit shall be made on a form supplied by the Village. Authorized representatives of the Village shall turn the hydrant on and off and install a portable Meter and Backflow Preventer to measure the volume of water used. If the Fire Hydrant Fee is insufficient to cover the labor costs and the Commodity Fee charged for the metered volume, the permit holder shall pay the difference.

Section 702. Village Approval of Hydrant Specifications. The Village must approve the type, size of openings, and types of nozzle thread on all hydrants installed on private property serviced by the Water System.

Section 703. No Obstruction of Hydrants. No Person shall, in any manner, obstruct or prevent free access to or place or store temporarily or otherwise any object, material, snow, debris, automobile or structure of any kind within a distance of fifteen (15) feet of any fire hydrant. Upon the failure of said Person to remove said obstruction which shall be set forth in a notice which shall be mailed to said Person by the Village, the Village is hereby authorized and empowered to remove said obstruction and charge the cost of said removal to said Person as a Miscellaneous Customer Fee.

Section 704. Access Easements. All fire hydrants installed on private property shall be dedicated to the Village together with an access easement with a minimum width of 15 feet centered on the hydrant service lead.

ARTICLE 8 WATER MAIN EXTENSIONS

Section 801. Requirements for Extensions. Extension of or changes in the Water System may be initiated by the Village or by written request, including petitions, from property owners. The Village may grant the petition, in its discretion, and prescribe the terms and conditions upon which the petition will be granted and may require the written acceptance of such terms and conditions by the petitioners. As a condition of granting the petition, the petitioners must pay, in addition to all other charges imposed on new connections under this Ordinance, a fee to cover the actual cost (or proportion of cost) of extending the water main along the entire frontage of the Premises, from property line to property line, improving the transmission and supply system, or making other changes necessary to accommodate the extension and new connection. All extensions of the Water System shall be dedicated to the Village, at no cost to the Village, following completion of the extension in compliance with Village specifications. The specifications for materials and construction shall be approved by the Village engineer.

Section 802. Extension Agreements. The Village shall have the authority to negotiate agreements for extensions of the Water System with landowners, developers and other municipalities, which agreements may take into consideration questions of demand, benefit, capacity, necessity, timing and funding and may provide for construction advances, prepayment of rates and charges, pay back arrangements of up to 15 years and similar matters.

ARTICLE 9 SYSTEM USE

Section 901. Authorized Representatives. No Person other than an authorized representative of the Village shall turn on or off any Service Connection without the written permission of the Village.

Section 902. Prohibited Activities. It shall be unlawful for any Person to do any of the following:

- (a) Damage or destroy any portion of the Water System;
- (b) To do anything which will in any way contaminate the Water System; or

- (c) To connect any pipe to the Water System or take or run Public Water from the lines of the System without complying with all the provisions of this Ordinance.

Section 903. Village Right to Stop Service; Emergencies. The Village may stop service to any Customer at any time for any reason, including repairs to the System, construction of extensions or accident. All Customers which have facilities which depend upon pressure from the main to keep them filled are hereby put on notice of the danger of collapse. The Village shall give reasonable notice except during emergencies and conditions of imminent hazard and will, so far as practical, use reasonable efforts to prevent inconvenience and damage in the event of a stoppage of service. The Village shall not be responsible or liable in damage for any inconvenience, injury or loss caused by the failure of a Customer to receive Public Water for any reason, including the shutting off of such supply by the Village, nor shall the Village be liable for any damage caused by any change in the pressure of Public Water delivered to any Customer.

Section 904. Leaking Service Line. If the Service Line from the curb stop to the Meter is found to be deteriorated or leaking, the Village may condemn or discontinue the service to the Premises and require that the same be repaired or replaced at the expense of the Customer.

Section 905. No Tampering; Liability. No Person, except an authorized representative of the Village in the performance of his or her duties, shall uncover or tamper with any portion of the Water System. Any Person responsible for any injury or damage to the Water System shall reimburse the Village therefore and for the loss of Public Water caused thereby and shall be responsible for any damage caused by escaping water.

ARTICLE 10 CROSS CONNECTIONS

Section 1001. Cross Connections with Water System. A connection to the Water System shall comply with existing laws, ordinances, codes and rules, including:

- (a) The Village of Ravenna Water Connection, Use and Rate Ordinance, including this Article, and all other Village ordinances pertaining to plumbing, water supply and sewage disposal.
- (b) The Michigan Safe Drinking Water Act, Act 399 of the Public Acts of 1976, as amended, and administrative rules promulgated thereunder, as such rules may be revised from time to time.
- (c) The Cross Connection Rules Manual of the Michigan Department of Environmental Quality, Drinking Water and Radiological Protection Division, being sections R325.11401 to R325.11407 of the state administrative code, as such rules may be revised from time to time.
- (d) The latest edition of the Michigan Plumbing Code.

Section 1002. Control Program. This Article, and any rules or regulations promulgated by the Village hereunder, constitutes the Village's comprehensive control program for the prevention of

all Cross Connections, which shall be submitted to the Michigan Department of Environmental Quality (also known as “MDEQ”) for review and approval. Following MDEQ approval, the Village shall implement the program for elimination or mitigation of existing, and the prevention of all future Cross Connections.

Section 1003. Cross Connection Devices. All devices for the prevention of a Cross Connection shall be Approved. The devices shall be installed in good working condition at the Customer’s expense. In accordance with this Article, the Village shall routinely inspect and require testing of such devices on regular intervals by a certified Back Flow prevention device technician at the Customer’s expense. If found to be defective or inoperative, the Customer shall be responsible for the expense of replacement.

Section 1004. Village Approval Required. The Customer shall obtain prior written approval from the Village before taking or installing any proposed corrective action or protective device. The total time allowed for completion of corrections ordered by the Village shall take into account the degree of Health Hazard involved and the time required to obtain and install necessary equipment. If the Cross Connection has not been removed within the time specified, the Village shall physically separate the Water System from the on-site piping system in such a manner that the two systems cannot again be connected by an unauthorized Person. The Village shall charge the cost thereof and any associated costs incurred by the Village including, but not limited to, contractor expenses, inspection costs, legal, administrative, and enforcement costs to the Customer as a Miscellaneous Customer Fee.

Section 1005. Secondary Water Supply. When a Secondary Water Supply is used in addition to the Water System, or in other high risk installations involving extensive plumbing, exposed Water System and Secondary Water Supply piping shall be identified by the American Water Works Association Standard Color Code and tags and so maintained that each pipe may be traced readily in its entirety. If piping is so installed that it is impossible to trace in its entirety, it shall be considered a Cross Connection.

Section 1006. Private Water Storage Tank. A private water storage tank supplied from the Water System shall be deemed a Secondary Water Supply unless it is Approved.

Section 1007. Maintenance. It shall be the responsibility of the Customer to maintain Cross Connection prevention devices in good working order and to make no piping or other arrangements for the purpose of altering or bypassing said devices.

Section 1008. Testing and Inspection. Periodic testing and inspection schedules shall be established by the Village for all Cross Connection prevention devices and shall be conducted in accordance with this section.

- (a) The water connections and plumbing systems of all Customers shall be initially inspected for the presence of a Cross Connection. The Village shall compile and maintain a list of all such Cross Connections. An Inspector shall identify and note the location and nature of any direct and potential Cross Connections, the location and details of Backflow prevention devices, and other pertinent information. The highest priority for inspections shall be

placed on facilities that pose a high degree of Health Hazard, that have a high probability that Back Flow will occur, or are known/suspected to have a Cross Connection.

- (b) Once initial inspections of all accounts are completed, then a re-inspection frequency shall be determined by the Village for each account, in the Village's sole discretion, based on the degree of Health Hazard and potential for Backflow. The MDEQ Cross Connection Rules Manual will be a guide in classifying the degree of hazard of each account. However, in general, situations in which Backflow could cause illness or death shall be considered a Health Hazard. Accounts that pose a Health Hazard or have a high potential for Backflow to occur must be re-inspected at least once per year. All other accounts must be re-inspected once every one to five years based on the degree of risk. Other factors such as new construction, water quality complaints, or anomalies in Customer billing, may prompt an immediate re-inspection.
- (c) After initial Cross Connection inspections are completed, the Village shall compile and maintain a comprehensive list or inventory of all Backflow prevention devices. The interval between such testing and inspections and overhauls of each Backflow prevention device shall be established in accordance with the age and condition of the device. Inspection intervals shall be determined by the Village, in its sole discretion, but generally should not exceed one year, and overhaul intervals should not exceed three years to assure that such devices have been installed properly and that debris resulting from the installation has not interfered with the functioning of the device. The testing procedures shall be in accordance with the manufacturer's instructions. Certified testing of a Reduced Pressure Principle Back Flow Preventer is required by a licensed plumber at the Customer's expense on an approved frequency. Records of the test as well as records of repair shall be provided to the Village by the Customer.
- (d) Backflow Preventers that are testable assemblies shall be routinely tested based on the associated degree of Health Hazard and probability of Backflow. Assemblies that are designated by the Village as a "high Health Hazard connection" shall be tested annually. All other assemblies must be tested once every three years. All assemblies must be tested immediately following installation and repair. The Customer is solely responsible for arranging and paying for the cost of such testing and the testing of such Backflow Preventer assemblies shall be performed by individuals holding an active ASSE 5110 Certification (backflow prevention assembly testing). The Village shall provide annual notice of testing requirements for Backflow Preventer assemblies to a Customer. Notices shall (1) clearly identify the assembly requiring testing (size, make, model, location, etc.); (2) specify the date by which the assembly must be tested; (3) indicate that tests must be completed by an ASSE certified tester; and (4) provide the MDEQ standard test form. A Customer shall promptly complete and file test forms with the

Village and the Village shall review and ensure that the test forms comply with the requirements of this Article. If necessary, the Village shall require retesting of a device for failure of a device to comply with this Article or applicable Cross Connection rules or Backflow Preventers standards or requirements.

- (e) All costs incurred by the Village with respect to a Cross Connection including, but not limited to, costs of inspection re-inspection, testing, contractor costs, legal and administration costs, may be charged to a Customer as a Miscellaneous Customer Fee.
- (f) Following any inspection pursuant to this Article, the Village shall inform the Customer of their compliance status with this Article and applicable Cross Connection rules.

Section 1009. Recordkeeping; Reporting.

- (a) The Village shall maintain a system of record keeping for all Premises and Customers that have a Cross Connection which, at a minimum, shall identify:
 - (1) the owner name, contact information, address and location of the Premises with the Cross Connection;
 - (2) a list of testable and non-testable Backflow Preventer assemblies including the location, manufacturer, make, model, size, ASSE standard number, and hazard classification of the assemblies;
 - (3) a description of Cross Connections on the Premises and the degree of hazard classification (and basis for such classification); and
 - (4) the required re-inspection frequency for the Cross Connection and any Backflow Preventer and any testing frequency for such Backflow Preventer and testable assemblies.
